PROFESSIONAL SUMMARY

A versatile and detail-oriented Data Quality Engineer / SDET with hands-on experience in Data Quality Validation, Automation Testing, and Software Quality Assurance. Skilled in SQL, Python, Selenium, JMeter, Azure, and AWS, with strong expertise in validating data pipelines, ensuring data accuracy, and supporting reliable analytics systems. Strong understanding of ETL validation, regression testing, defect tracking, and Agile development methodologies. Adept at collaborating with cross-functional teams to deliver scalable, accurate, and high-quality software and data solutions

CORE SKILLS

Testing & Automation: Selenium WebDriver, PyTest, JMeter, Manual & Automation Testing, Functional Testing, Regression Testing, Performance Testing, Test Execution

Programming & Querying: Python, SQL

Data Quality & Validation: Data Validation, ETL Testing, Data Profiling, Data Reconciliation, Data Integrity Validation, Data Accuracy Verification

Cloud & Data Platforms: Snowflake, Azure, AWS, Oracle

Tools & Technologies: Jira, Git, Agile Methodologies, CI/CD Basics

Concepts & Methodologies: STLC, SDLC, Defect Tracking, Test Case Design & Execution, Smoke Testing, API Testing, Agile Development Practices

PROFESSIONAL EXPERIENCE

Junior QA Engineer — DQLabs Private Limited India

July 2024 – Present | Hyderabad, India

Data Quality Validation & Analytics | SQL, Snowflake, Python, Azure, AWS

- Validated end-to-end data ingestion pipelines from multiple data sources into Snowflake environments.
- Performed data quality testing across raw, staging, and transformed layers to ensure data accuracy and consistency.
- Verified structured datasets and AI-driven outputs using SQL validation techniques.
- Executed regression testing for recurring data loads and production data releases.
- Audited transformations, joins, and derived metrics across bronze, silver, and gold data layers.
- Collaborated with cross-functional teams to identify, track, and resolve data quality issues using Jira.

Data Pipeline Testing & Automation | Selenium, PyTest, JMeter, SQL

- Performed functional, regression, and automation testing for data-driven applications and workflows.
- Validated ETL processes, transformation logic, and historical data tracking across analytics platforms.
- Conducted API and backend data validation to ensure system reliability and integrity.
- Supported performance and stability testing for scalable data processing systems.
- Maintained QA documentation, test execution reports, and defect tracking records following Agile methodologies.

Automation Testing Intern — CV Corp Institute

December 2023 – June 2024 | Hyderabad, India

Automation & Software Testing | Selenium, Python, SQL, JMeter

- Gained hands-on experience in Manual and Automation Testing using Selenium WebDriver and Python.
- Developed and executed automated test scripts for web application functionality and regression testing.
- Performed SQL validation and backend testing to ensure data accuracy and consistency.
- Worked on functional, regression, smoke, and performance testing for web-based applications.
- Utilized JMeter for basic performance and load testing scenarios.
- Participated in Agile-based testing workflows, defect reporting, and test documentation processes.
- Collaborated with mentors and team members to improve test coverage and application quality.

CERTIFICATIONS

- Microsoft Certified: Azure Data Fundamentals (DP-900) — December 2025
- ACCELQ Certified Automation Engineer — September 2025
- Databricks Fundamentals Accreditation — July 2025 – July 2026
- dbt Labs dbt Fundamentals — April 2025

EDUCATION

MCA — Adikavi Nannayya University — 7.88 CGPA (2023)

Bachelor of Science (B.Sc) — Adikavi Nannayya University — 7.0 CGPA (2021)

Intermediate — MPC | Pragathi Junior College — 91.1% (2018)

SSC — Z P P High School — 7.7 GPA (2016)
